

DYNAMIC CELL EXTRACTION COURSE

About The US C-SOG Dynamic Cell Extraction ® Course

US C-SOG's Dynamic Cell Extraction ® Course is a "modern" Cell Extraction program and is the only one in the US that has been in service and litigation free. Thousands of cell-extractions have been performed using the methods you'll learn in this course. This program is proven to reduce officer injury, inmate injury, and liability in your facility. This is the most comprehensive cell extraction program you'll find. It was completely designed and developed by the cadre at US C-SOG. This course uses the latest in technology and tactics. If you want to learn the most effective cell-extraction techniques available you need to sign up for this class. Act now because this class will fill up fast!
